SALAMANDERLIVE™

SalamanderLive is a scalable tool used to credential and account for all resources. Increase situational awareness during large-scale events or day to day activities with real-time reporting. Manage personnel and equipment profiles, qualifications, and upload documents. All information collected in the field syncs to SalamanderLive to create a common operating picture.

Core Solutions For Incident / Event Exercises

PEOPLE BADGING

Create badges for event staff, volunteers, personnel, and press to ensure complete accountability throughout the event and enable reliable on-scene identity verification

INCIDENT MANAGEMENT

Boost visibility to every aspect of an event and day-to-day operations to stay informed, proactive, and in control

VOLUNTEER MANAGEMENT

Provide end-to-end visibility with pre-credentialing, just-in-time credentialing, and tracking to manage all resources - people, equipment, and activities - with confidence and clarity

PLANNED EVENT MANAGEMENT

Develop detailed event plans in advance to allocate critical time for organizing assignments and identifying all required resources before the event starts

EQUIPMENT MANAGEMENT

Maintain a centralized database of all event-related equipment to ensure full visibility into what is available, helping guarantee that necessary supplies are on hand when the event begins
