

TAG

- TAG all employees, vendors, equipment, etc.
- Create temporary TAGs on the spot for visitors and guests
- Easily check-in and check-out personnel by scanning a QR code
- Use personal Android or iOS smartphone devices as a mobile credential

TRACK

- TRACK all activity generated by scanned TAGs, including time and attendance
- Utilize tablets and smartphones for remote tracking
- Establish security tiers that only allows specific people / groups in certain designated areas
- Simply integrate with 3rd party security systems

REPORT

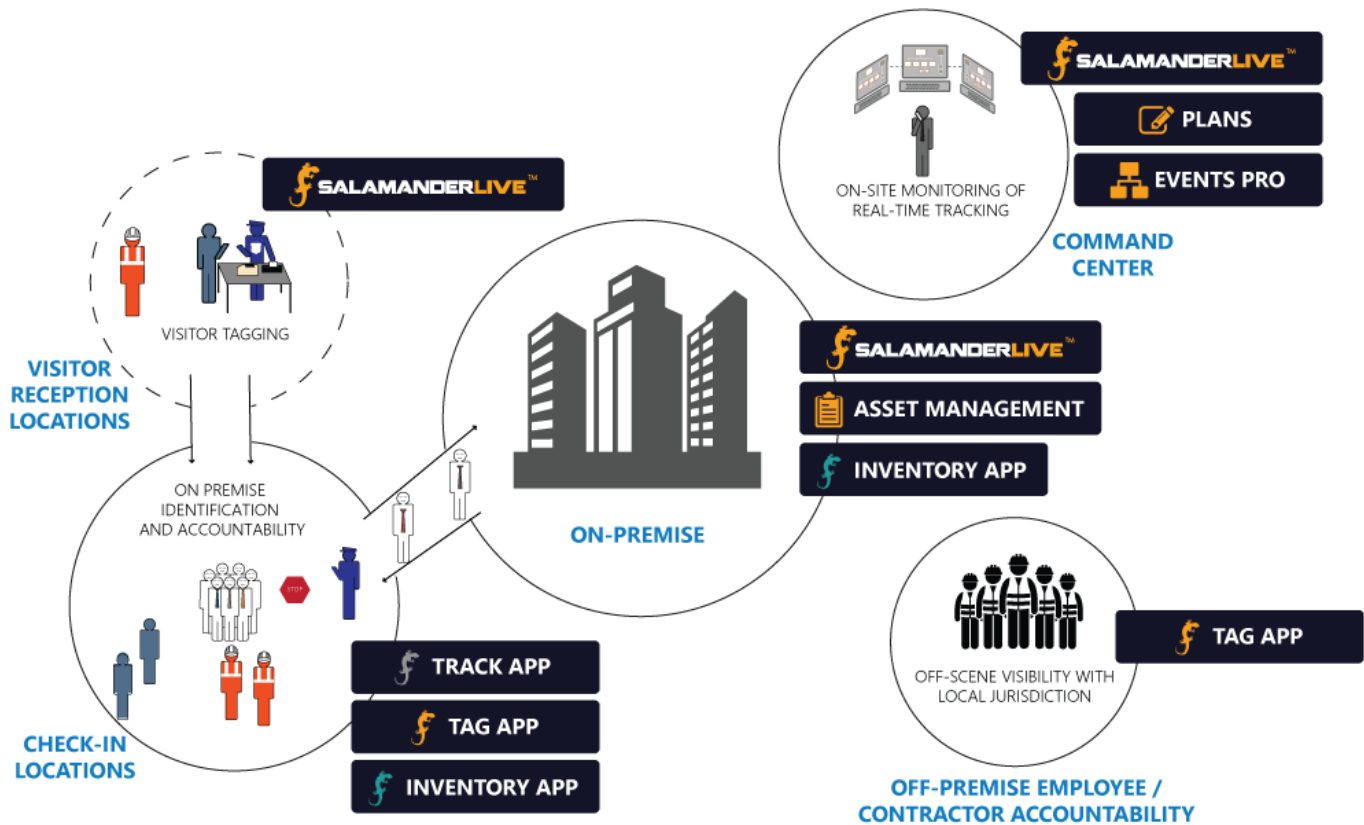

- Have real-time visibility of on-site activity
- Connect events with local emergency management to create a common operating picture
- Run real-time, comprehensive reports on personnel, events, or assets with timestamped activity
- Run reports to know when to order additional supplies

EXAMPLES OF SALAMANDER IN USE

- Employee time clocking
- In-field service and support accountability
- Managing corporate event planning and tracking
- Accounting for employees and response staff during emergencies
- Track physical location of in the field employees and contractors during sales and operations efforts

SCAN ME

SALAMANDERLIVE™

SalamanderLive is a scalable tool used to credential and account for all resources. Increase situational awareness during large-scale events or day to day activities with real-time reporting. Manage personnel and equipment profiles, qualifications, and upload documents. All information collected in the field syncs to SalamanderLive to create a common operating picture.

EVENTS PRO
ICS Chart: Create / edit assignments and resources in an ICS chart.

Roster: View all resources affiliated to an event.

GIS MAPPING: View the physical location of assignments and resources.

Resource Timer: Set specific individual timers and warnings for personnel.

PLANS
 Pre-plan assignments and resources. Email credentials to resources. View actual vs planned data within an active event.

TAG APP
 Allow personnel to check-in and check-out of events from their personal phone. View real-time whereabouts on GIS maps.

TRACK APP
 TRACK resource assignment and location by scanning tags or downloading resources, view a common operating picture, and validate credentials.

INVENTORY APP
 TRACK inventory issuance, returns, and auditing, while ensuring inspections, maintenance, expirations, etc. are never missed.

ASSET MANAGEMENT
 Manage all consumable and non-consumable assets and monitor their whereabouts.

RAPID TAG
 Rapidly create event specific ID badges to TRACK all volunteers / mutual aid and download activity reports.
