SALAMANDER**LIVE**™

TAG

- Create TAGs for personnel, staff, and volunteers, ahead of time based on registration

- Quickly create TAGs on the spot for event staff, volunteers, and emergency personnel

- Establish interoperability across emergency agencies for complete situational awareness

- See where resources are located in real-time on a plotted digital map

TRACK

- Monitor in real-time all staff, volunteers, and emergency personnel

- Utilize tablets and smartphones for mobile tracking

- Confirm scanned credentials are valid and up to date

- Create common operating picture of accountability information in an ICS chart format

REPORT

- Pull comprehensive reports during the event to access real-time data and incident logs

- Once the event concludes, pull reports to capture data to evaluate the success of the event

- Create a contingency plan that coordinates with emergency agencies in preparation of an event

- Have situational awareness with off-scene activity

EXAMPLES OF SALAMANDER IN USE

- **Scanning in workers and volunteers for each operational period**

- **Pre-planning operation period assignments and rosters**

- **Tracking the distribution of equipment / inventory**

- **Reporting on event costs**

- **Accounting for on-time and late personnel**

- **Tracking physical location of remote workers**

SCAN ME

Salamander is regularly used during events to account for first responders, volunteers, media, attendees, participants, patients, and more.

SalamanderLive is a scalable tool used to credential and account for all resources. Increase situational awareness during large-scale events or day to day activities with real-time reporting. Manage personnel and equipment profiles, qualifications, and upload documents. All information collected in the field syncs to SalamanderLive to create a common operating picture.

EVENTS PRO

ICS Chart: Create / edit assignments and resources in an ICS chart.

Roster: View all resources affiliated to an event.

GIS MAPPING: View the physical location of assignments and resources.

Resource Timer: Set specific individual timers and warnings for personnel.

PLANS

Pre-plan assignments and resources. Email credentials to resources. View actual vs planned data within an active event.

TAG APP

Allow personnel to check-in and check-out of events from their personal phone. View real-time whereabouts on GIS maps.

TRACK APP

TRACK resource assignment and location by scanning tags or downloading resources, view a common operating picture, and validate credentials.

INVENTORY APP

TRACK inventory issuance, returns, and auditing, while ensuring inspections, maintenance, expirations, etc. are never missed.

ASSET MANAGEMENT

Manage all consumable and non-consumable assets and monitor their whereabouts.

RAPID TAG

Rapidly create event specific ID badges to TRACK all volunteers / mutual aid and download activity reports.
