

TAG

- Create TAGs for participants, staff, and attendees ahead of time based on pre-registration
- Quickly create TAGs on-the-fly for event staff, personnel, volunteers, press, etc.
- Choose various media types to print badges
- Quickly TAG attendees during an evacuation
- See where resources are located in real-time on a plotted digital map

TRACK

- Monitor in real-time all attendees and participants
- Utilize Android or iOS mobile devices for remote tracking
- Confirm scanned TAGs are valid and up-to-date
- Track the distribution of equipment, gear, and / or consumables
- TRACK and timestamp all resource activity in real-time

REPORT

- Pull comprehensive reports during the event to access real-time data and incident logs
- Once the event concludes, pull reports to view participation data
- Have visibility of who is still actively on-site and when everyone has checked out of the event location
- Quickly pull reports during an evacuation to easily reunite family and friends

Core Solutions For Event Management

PEOPLE BADGING

Create badges for event staff, volunteers, personnel, and press to ensure complete accountability throughout the event and enable reliable on-scene identity verification

EQUIPMENT MANAGEMENT

Maintain a centralized database of all event-related equipment to ensure full visibility into what is available, helping guarantee that necessary supplies are on hand when the event begins

VOLUNTEER MANAGEMENT

Provide end-to-end visibility with pre-credentialing, just-in-time credentialing, and tracking to manage all resources - people, equipment, and activities - with confidence and clarity

INVENTORY MANAGEMENT

Track all equipment issued, returned, and consumed during the event to maintain full visibility of equipment usage and support accurate post-event reporting

PLANNED EVENT MANAGEMENT

Develop detailed event plans in advance to allocate critical time for organizing assignments and identifying all required resources before the event starts

FAMILY REUNIFICATION

Provide a secure, cloud-based accountability platform that helps agencies track, identify, and reconnect individuals with loved ones
